THE
OFF-ROAD CUP

“Incoming Rider” must pull in, stop, give his/her wrist band to a pit crew member – that pit crew member will carry it over to the “Outgoing Rider”.
The main idea here is to have the wrist band transfer take place in the team’s designated pit area...NOT in pit lane.

III. **Out On The Course**

- a. Do NOT cut the course – no questions asked; immediate disqualification.
- b. Please be careful and don't ride over your head. This is a 9 HOUR race; you can't win it with one fast lap. If you see someone down and seriously hurt please take note of where and notify the scoring crew.
- c. There may be an optional extreme section set up. If you attempt it you must follow through somehow or go around the long way – do not break through the ribbon and shortcut to the other side of the obstacle. Penalty: 1 lap.
